Message

I am delighted to learn that an international seminar on "Start up and Stand up India from Mines to Steel" is being organised by MECON LIMITED in association with RDCIS & CET (SAIL) under the aegis of the Indian Institute of Metals, Ranchi Chapter during 29th-31st of January, 2016 at Ranchi and a souvenir is also released to mark the occasion.

I understand that, seminar aims to identify & nurture road maps for initiating the "Start-up" calls for innovative design & technology in mining, iron ore beneficiation, pelletization, agglomeration, process innovation & capacity augmentation in Iron & Steel making as well as act as the "Stand-up" to boost investment thus expanding manufacturing base and support Make in India drive in general.

I am sure that the interactions/ deliberations of the seminar will emphasize on various facets of Mining & Steel industry towards "Start up" and "Stand up" India initiative of our nation and thus benefit to all the stakeholders of our industry.

I convey my best wishes for the success of the International seminar.

(Balvinder Kumar)
