MECON

excellence in
civil Engineering

MECON TODAY

MECON LIMITED formerly known as CEDB, the design nucleus of the erstwhile Hindustan Steel Limited, was founded in 1959. Since then MECON has been playing a key role in development of India's ferrous, non-ferrous and other allied industries and is now the country's largest resource base in consultancy and equipment and systems design and supply.

Our regional and unit offices spread all over the country are continuously working to cater to the needs of the customers. Most modern communication links and inter-office resource mobilisation enable us to comply with ever demanding and increasingly tougher time schedules comparable to any international standards.

It is interesting to note that once we have established a link with any of our esteemed clients, it has always blossomed into an everlasting bond owing to our uninhabited concern for planning and engineering of even the minutest details irrespective of the size of the project.

Areas of Operation

MECON can offer Civil Engineering Services in the following Areas

1. Metal Sector

- # Mega & Mini Integrated Steel Plant
- # Miniature / Medium Iron Making Plant
- # Aluminium, Zinc & Copper Industries
- # Coal & Coke Oven Plants
- # Chemical Plants
- # Cement Plants
- # Refractory Plants
- # By-Product Plants
- # Petrochemical Industries

2. Power Sector

- # Thermal Power Plants
- # Fossil Fuel Generators
- # Nuclear Fuel Projects
- # Mini / Micro Hydel Projects
- # Power Transmission & Distribution

3. Oil & Gas

- # Gas Pipelines
- # CNG Stations & City Gas Distribution System

4. Infrastructure

- # Industrial Townships
- # Township Infrastructures
- # Office Complexes
- # Rural Development Projects
- # Water Management
- # Water Treatment
- # Gas Cleaning
- # Sewage Management
- # Effluent Treatment & Disposal
- # Sports Complex / Stadium
- # Material Handling
- # Ports

5. Special Projects

- # Defence Projects
- # Space Engineering & Rocketry
- # Mints
- # Note Presses
- # Geo-technical Centrifuge Complex
- # Minerals

Civil Engineering Services

With about 200 topflight civil engineers, we have the privilege to serve our Clients in the following specialties :-

1. Engineering / Consultancy

- # Techno-Economic Feasibility Studies
- # Geo-technical Investigation
- # Topographical Survey
- # Detailed Project Reports
- # Detailed Design & Engineering
- # Approval of Designs & Drawings prepared by Vendors
- # Restoration of Existing Structures

2. Site Services

- # Construction Management with Day-to-Day Supervision
- # Project Monitoring & Control
- # Designer's Supervision
- # Construction Quality Control

Our Strengths

- # Goodwill of Clients won over the years
- # Topflight engineers with proven records of achievements
- # One to one Computer facilities with latest State of the Art Software for Design and Drafting.
- # Technical Information Centre with Computer Retrieval System
- # Well Knit Offices all over India and Abroad
- # Rich Data Bank
